February 11, 2004

Greetings:

I am writing to you on behalf of The Lost & Foundation, a non-profit 5018 (3) charitable organization that works to help others in need through the power of music. The Lost & Foundation is made up primarily of musicians dedicated to volunteering their energy and talents to raise monies primarily through benefit concerts. Several times a year we bring together the musical talents of some of the finest performers available in Montana and present them on multiple stages, along with silent auctions, raffles and other fund raising activities for a day of unparalleled fun. If you would like to know more about us, please visit our Internet site at www.lostandfoundation.com.

We are writing to you in regard to information we have obtained that you may be in a position to be a candidate for the kind of assistance that we can provide. Please understand that what we do can only help a very small number of people in need. Unfortunately there are a great many individuals facing immense difficulties. Prior to one of our concerts, the officers of Lost & Foundation review the situations of those who could benefit from our help and try to determine who might obtain the most benefit from our efforts. While our benefits don't generally raise enormous amounts of money, they can bring a tremendous amount of relief to the right situation.

To assist us in this, we are asking if you would want to provide us some information regarding your personal circumstance. If you would like to be considered to be a Lost & Foundation beneficiary, please provide us information with regard to the following.

Please explain your current situation of need and what the prognosis or expected future of it might be.

Please provide information on the financial impacts you are facing including the amount of bills related to the situation both current and those expected in the future. Include some perspective of a grand total and total monetary impact directly to the family.

Are there other benefits or relief efforts for this that have been done or are planned for in the future?

Are you willing to be public with your situation? (e.g., presented on television, in newspapers etc).

Please feel free to contact us if you have any questions for us. Regardless of whether we might be of direct assistance to you or possibly provide guidance to other help, please take heart and comfort that you live in a caring world filled with the joy that the power of music can bring.

Sincerely,

The Lost & Foundation
